**ACACIA SUBSIDIARY ACQUIRES PATENT
FOR WEBSITE CRAWLING TECHNOLOGY**

Newport Beach, CA. – (BUSINESS WIRE) January 4, 2010 – Acacia Research Corporation (Nasdaq:ACTG) announced today that a subsidiary has acquired a patent for website crawling technology.

"As Acacia's licensing success grows, more patent owners are selecting us as their partner for the licensing of their patented technologies," commented Paul Ryan, Acacia Chairman and CEO. "Acacia is rapidly becoming the leader in technology licensing and we continue to grow our base of future revenues by adding new patent portfolios," concluded Mr. Ryan.

This patented technology generally relates to notifying search engines of website updates. Instead of having search engines cyclically and repetitively crawl websites to find updated content, website owners are able to actively notify search engines of updates to their websites.
